What if I have questions about my DeltaCare USA Program?

Eligibility for you and your family

If you meet your group's eligibility requirements for dental coverage, you can enroll in the DeltaCare USA program. You may also enroll eligible dependents. Contact your benefits administrator if you have any questions.

Easy enrollment

Simply complete the enrollment process as directed by your benefits administrator. Be sure to indicate a dentist (from the list of contract dental facilities) for both yourself and your eligible dependents. Include the name of your group.

How your DeltaCare USA program works

Your selected contract dentist will take care of your dental care needs. If you require treatment from a specialist, your contract dentist will handle the referral for you.

After you have enrolled, you will receive a Delta Dental membership packet that includes an identification card and an Evidence of Coverage booklet that fully describes the benefits of your dental program. Also included in this packet are the name, address and phone number of your contract dentist. Simply call the dental facility to make an appointment.

Under the DeltaCare USA program, many services are covered at no cost, while others have copayments (amount you pay your contract dentist) for certain benefits. See the "Description of Benefits and Copayments" for a list of your benefits.

Please note: Dental services that are not performed by your selected contract dentist, or are not covered under provisions for emergency care below, must be preauthorized by Delta Dental to be covered by your DeltaCare USA program.

Provisions for emergency care

Under your DeltaCare USA program, you and your eligible dependents are covered for out-of-network dental emergencies. Your program pays up to \$100 for out-of-network emergency dental expenses per emergency for each enrollee.

My dentist is a Delta Dental dentist but is not on the list of DeltaCare USA dentists. Can I still receive treatment from this dentist?

You must receive treatment from your selected DeltaCare USA contract dentist. Please note that Delta Dental dentists are not necessarily DeltaCare USA dentists. With more than 3,800 general and specialist dentists, the DeltaCare USA network is one of the largest dental networks in California.

Do my family members receive treatment from the same DeltaCare USA contract dentist?

You and your eligible dependents may receive care from the same contract dentist, or if you prefer, you may collectively select up to a maximum of three individual contract dental facilities.

Can I change my contract dentist?

You may change contract dentists by notifying us either by phone or in writing, or by visiting our website (deltadentalins.com). If you contact us by the 21st of the month, the change will become effective the first of the following month.

How long does it take to get an appointment with a DeltaCare USA dentist?

Two to four weeks is a reasonable amount of time to wait for a routine, non-urgent appointment. If you require a specific time, you may have to wait longer. Most DeltaCare USA dentists are in private group practices, which means greater appointment availability and extended office hours.

Highlights of your DeltaCare USA Program

Are pre-existing dental conditions and work in progress covered?

Treatment for pre-existing conditions, such as extracted teeth, is covered under the DeltaCare USA program. However, benefits are not provided for any dental treatment started before joining the program (that is, work in progress, such as preparations for crowns, root canals and impressions for dentures). Orthodontic treatment in progress may be covered for new DeltaCare USA enrollees. See the "Limitations and Exclusions of Benefits."

How does the DeltaCare USA program encourage preventive care?

Your DeltaCare USA program is designed to encourage regular visits to the dentist by having no copayments (fees you pay to the contract dentist) on most diagnostic and preventive benefits. See the enclosed "Description of Benefits and Copayments."

Does my DeltaCare USA program cover specialists' services?

Your contract dentist will coordinate your specialty care needs for oral surgery, endodontics, periodontics or pediatric dentistry with an approved contract specialist. If there is no contract specialist within your service area, a referral to an out-of-network specialist will be authorized at no extra cost, other than the applicable copayment. If you or your dependent is assigned to a dental school clinic for specialty services, those services may be provided by a dentist, a dental student, a clinician or a dental instructor.

FOOTNOTES

- An amalgam is the benefit.
- Optional is defined as any alternative procedure presented by the Contract Dentist that satisfies the same dental need as a covered procedure, is chosen by the Enrollee, and is subject to the limitations and exclusions of the program. The applicable charge to the Enrollee is the difference between the Contract Dentist's "filed fee" for the Optional procedure and the "filed fee" for the covered procedure, plus any applicable Copayment for the covered procedure. Optional treatment does not apply when alternative choices are benefits. "Filed fees" means the Contract Dentist's fees on file with Delta Dental. Questions regarding the DeltaCare USA program should be directed to Delta Dental's Customer Service department at 800-422-4234.
- Base or noble metal is the benefit. If a crown, pontic, inlay, onlay or indirectly fabricated post and core is made of high noble metal, an additional fee up to \$100.00 per tooth will be charged for the upgrade. This charge also applies to a titanium crown.
- 4 Replacement is subject to a limitation requiring the existing restoration to be 5+ years old.
- Porcelain and other tooth-colored materials on molars are considered a material upgrade with a maximum additional charge to the Enrollee of \$150.00.
- 6 A benefit for permanent teeth only.
- Includes after delivery adjustments and tissue conditioning, if needed, for the first six months after placement, if the Enrollee continues to be eligible and the service is provided at the Contract Dentist's facility where the denture was originally delivered.
- Replacement is subject to a limitation requiring the existing denture to be 5+ years old.
- 9 Limited to 1 per denture during any 12 consecutive months.
- Replacement is subject to a limitation requiring the existing bridge to be 5+ years old.
- Listed Copayment covers up to 24 months of active orthodontic treatment excluding the services listed for D8999 (Start-up fee). Beyond 24 months of active treatment, an additional monthly fee of \$75.00 applies.

- In the event comprehensive orthodontic treatment is not required or is declined by the Enrollee, a fee of \$25.00 will apply.

 The Enrollee is also responsible for any incurred orthodontic diagnostic record fees.
- Includes adjustments and/or office visits up to 24 months. After 24 months, a monthly fee of \$75.00 applies.

SCHEDULE B

Limitations of Benefits

- Full mouth x-rays are limited to one set every 24 consecutive months and include any combination of periapicals, bitewings and/or panoramic film.
- 2. Bitewing x-rays are limited to not more than one series of four films in any six month period.
- 3. Diagnostic casts are limited to aid in diagnosis by the Contract Dentist for covered benefits.
- 4. If a biopsy is preauthorized by Delta Dental for an oral surgeon, then examination of the resulting biopsy specimen is covered under codes D0472, D0473 or D0474 and available at no additional cost.
- 5. Prophylaxis or periodontal maintenance is limited to one procedure each six month period.
- 6. Benefits for sealants include the application of sealants only to permanent first and second molars with no decay, with no restorations and with the occlusal surface intact, for first molars through age nine and second molars through age 15. Benefits for sealants do not include the repair or replacement of a sealant on any tooth within three years of its application.
- 7. A filling is a benefit for the removal of decay, for minor repairs of tooth structure or to replace a lost filling.
- 8. A crown is a benefit when there is insufficient tooth structure to support a filling or to replace an existing crown that is non-functional or non-restorable and meets the five year limitation (Limitation #12).
- 9. A covered metallic inlay, onlay, crown or fixed partial denture (bridge) using base or noble metal is available for listed Copayment(s). If the Enrollee elects to have high noble metal used instead, the maximum additional cost of this material upgrade is \$100.00 per tooth or pontic. For an indirectly fabricated post and core, the benefit is for base or noble metal. If the Enrollee elects to have a high noble metal indirectly fabricated post and core instead, the maximum additional cost of this material upgrade is \$100.00 per tooth.
- 10. For molars, a covered inlay, onlay, crown, or unit of a fixed partial denture (bridge) is metallic without porcelain or other tooth-colored material.
